LONDONPAVER INSTALLATION GUIDELINES

1. Excavate unsuitable, unstable or unconsolidated subgrade material and compact the area which has been cleared. Backfill and level with class 5 gravel or recycled concrete suitable for base material of compacted base for light vehicular and pedestrian traffic, increasing to 12 in. for heavy vehicular and industrial use.
2. Place bedding course of washed concrete and sand conforming to the grading requirements to an approx. depth of 1 to 1-1/2".
3. Where required, cut pavers with a concrete saw to fit accurately, neatly and without damaged edges.
4. Tamp pavers with a plate compactor uniformly level, true to grade and free of movement.
5. Fill joints with sand.
