

Dear Producer:

Welcome to the profitable opportunity of manufacturing Londonstone™ Retainingwall.

This is a turn-key solution for producers to jump into the retainingwall market simply by purchasing a mold through Besser Proneq. Your mold purchase includes:

1. Use of patented features
2. Engineering & Testing
3. Brochures, price sheets w/ photo templates, weight delivery data
4. Web links to [www.londonstone.net](http://www.londonstone.net)

All of this included with **NO ROYALTIES** or ongoing fees.

Londonstone™ has been successfully produced for over eleven years. This experience and innovation has led to the unique design of our mold and splitter assemblies which offer a wide variety of looks with the fewest mold parts needed. Some features are:

Rugged Londonstone - patented design  
- unique look without additional tumbling or aging equipment

Partition Straight or Rugged  
- made in the same mold box as the Rugged Londonstone  
- Split with the same Splitter Assemblies as other units

Grid Lip  
- patented design  
- grid lip interlock more effective than folding grid over lip

Londonlite  
- patented  
- only manufactured lighted system on the market  
- Easy sell to architects for safe steps and walk paths

Splitter Assembly  
- unique design serves multiple shapes  
- Rugged assembly splits Rugged LS, Cap & Partition  
- Londonstone™ assembly splits Londonstone™, Cap & Decrowall™  
- Half the assemblies to purchase, half the change overs

Step Unit  
- “A Step ahead of the Rest”, largest, safest tread in the industry
