

## LondonStone™ has put quality and affordability back into landscaping.

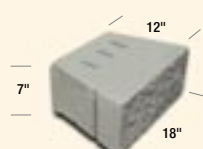

- No concrete footings required, easy to install
- No mortar necessary
- Durable, structurally stable walls
- No maintenance, environmentally safe
- Less costly than name-brand retaining walls
- Safe, comfortable integral step unit
- Lip system, preferred by landscapers
- Quality, clean, consistent units available in ten colors

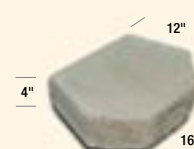

**7" LondonStone**  
7 x 16 x 12  
Weight: 75 lbs.  
Face Area: .78 sq. ft  
Units per Cube: 27

**7" LondonStone Cap**  
7 x 16 x 12  
Weight: 75 lbs.  
Face Area: .78 sq. ft  
Units per Cube: 27

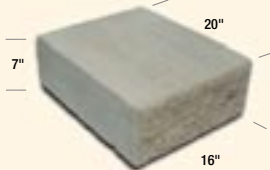

**7" Straight Face**  
7 x 18 x 12  
Weight: 80 lbs.  
Face Area: .88 sq. ft  
Units per Cube: 27

**4" Round Cap**  
4 x 16 x 12  
Weight: 50 lbs.  
Face Area: .44 sq. ft  
Units per Cube: 54

**Reversible Cap**  
3-1/2 x 13 x 12  
Weight: 37 lbs.  
Face Area: .31 sq. ft  
Units per Cube: 72

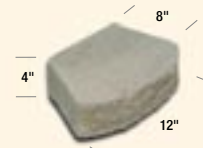

**Step Unit**  
7 x 16 x 20  
Weight: 168 lbs.  
Face Area: .78 sq. ft  
Units per Cube: 12

**Half Step**  
7 x 8 x 20  
Weight: 84 lbs.  
Face Area: .39 sq. ft  
Units per Cube: 24

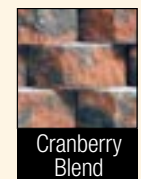

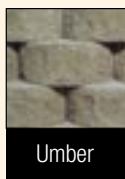

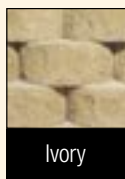

**Decrowall**  
4 x 12 x 8  
Weight: 25 lbs.  
Face Area: .33 sq. ft  
Units per Cube: 96

**Decrowall Cap**  
4 x 12 x 8  
Weight: 25 lbs.  
Face Area: .33 sq. ft  
Units per Cube: 96

**Reversible Decrowall Cap**  
2-5/8 x 8 x 8  
Weight: 10 lbs.  
Face Area: .14 sq. ft  
Units per Cube: 208

## All the benefits of LondonStone™ plus...

- Three different sizes for added versatility
- The natural/rough look of Rugged LondonStone blends with the environment and withstands the effects of it.
- Available in natural blended colors

Rugged LondonStone is packaged as one unit in three different sizes. Rugged Cap is sold separately.

### Rugged Cap

3-1/2 x 13 x 12  
Weight: 37 lbs.  
Face Area: .31 sq. ft  
Units per Cube: 72

### 6" Rugged

7 x 6 x 12  
Weight: 35 lbs.  
Face Area: .29 sq. ft

### 12" Rugged

7 x 12 x 12  
Weight: 68 lbs.  
Face Area: .58 sq. ft

### 18" Rugged

7 x 18 x 12  
Weight: 79 lbs.  
Face Area: .88 sq. ft

Rugged units  
total  
23.62 sq. ft.  
per pallet

## LondonLite™ provides quality “in-block” lighting solutions.

- An affordable landscape lighting alternative
- Low voltage lighting system designed into all of our block sizes & colors
- Safety feature of having a wall lit stairway or walkway
- Easy maintenance with a screw in lens cap on the front of the block

## Grid Lip is the solution to building retaining walls over five feet tall.

- Easy installation
- Available in 7" LondonStone and 7" Straight Face
- Geogrid easily slips into the teeth of the block by pulling up on the grid behind the wall.
- Geogrid does not need to bend around the lip of the block thus increasing the design strength.

## LONDONSTONE INSTALLATION GUIDELINES

### Step 1: ESTIMATE NUMBER OF UNITS

- A) Figure square footage of retaining wall (length of wall x height of wall = total sq. ft.)
- B) Divide total sq. ft. of wall by sq. ft. face area of unit = Total units needed  
 Example: Wall needed is 15' long x 4' high: 15 x 4 = 60 sq. ft.  
 Using 7" LondonStone; face area - .78 sq. ft. 60 ÷ .78 sq. ft. = 77 units

### Step 2: PREPARE BASE

Place a leveling pad using 1/2" - 3/4" crushed stone, recycled concrete or gravel, approx. 6" thick depending on the height of the wall. Compact to form a consistent level base.

### Step 3: INSTALL THE BASE COURSE

Start at the lowest elevation. Place and level each of the first course units side to side, front to back and with the adjacent unit.

### Step 4: BACKFILL

Install 12" of drainage fill (3/4" rock) behind each course. Compact these materials with a hand tamper or vibrating plate compactor.

### Step 5: INSTALL ADDITIONAL COURSES

Position the second course of LondonStone upon the preceding layer straddling the two lower units and staggering the vertical joints.
